THURSDAY, JANUARY 20, 1898. PROSPERITY SUPPLEMENT

The Petersburg, Ilnd., News is said to have done magnificent service for na-tional honor in the recent presidential campaign, and since that time has been issuing "prosperity supplements to show that the action of the voters in repudating the "ld to I fallacy" had restored confidence and that a wave of prosperity was sweeping over the country, but, if we may judge from a recent alloyed which we have

try, but, if we may judge from a recent editorial which appeared in our este med contemporary, clamorous cruditors caused the editor to become disgusted, and he ceset his mind in the following language:

"During cach month of the year we furnish our readers with R publican prosperity supplements—no more such supplements will be sent out with our paper. The supplements are a froud, a delusion, and a lie. We are assumed of them, sick and sore at the idea of sending out such prosperity supplements when at the same time we are unable to collect enough money to meet our bills after having made them."

The editor's life, at best, is not spent

The editor's life, at best, is not spent in lounging upon a bed of roses and the "delinquent subscriber" is a ghost which will not down. The editor of the News should have the unit igned sympathy of the entire profession. Who can conceive of more horrible torture than that experienced by a conscientious newspaper man who is forced into the apparently hypecritical position of talk-ing "prosperity," when the bank ac-count is getting below the "bills paya-ble" page of the ledger?

Why did the Hon, Tom Watson ab-ent thimself from the national conven-ion of the Middle-of-the-Roaders?— St. Louis Republic.

Inasmuch as the Hon. Thomas Evergreen Watson is too busy to enlighter the world on this subject, it is, of course impossible to give an absolutely cor-rect reason. There are many, however, which suggest themselves, Probably the Hon. Tom has at last come to a proper realization of his own size and impor-tance, and knows that the middle-ofthe-road-saye, even the whole road-is entirely too small to accommodate him. Or perhaps the result of the last Pres-idential election gave him a proper con-ception of where "he is at."

The action of the council in passing an ordinance to prohibit Sunday work. when there is already a State law coering the subject, would seem to strike the average mind as being a work of supererogation. It would be almost as sensible for a body of scientists to meet and solemnly promulgate an order re quiring all terrestial objects to be sul ject to the law of gravitation.

The officials of the navy department have again opened negotiations with Carnegie and the Bethlehem Steel Com-pany. Evidently Newport News is not the only city that will not get that government armor plant.
